*Rest in Peace, our Precious, Precious girl*

Brindell, our free-spirited dog who loved to explore, made the mistake of wandering into a "neighbors yard" and was shot & killed at point blank range because she was a PIT BULL. My dear one, you will be missed by the many people that knew you as a gentle, loving soul; the children you loved and were loved by. Forever in our hearts - you are now spared the prejudice of your exploited and misunderstood breed, in a place of love and acceptance where no one cares that you're a PIT BULL. You were loved deeply and will be greatly missed! Be free, my friend - you can explore in safety now!!

***Don't buy into the media hype ~ dogs are only as good as their people!***
